Etere wish to be a good corporate citizen and to reduce landfill by recycling wherever possible. Our goal is to minimize waste and pollution and to act in a manner that creditably sustains our environment.

Etere is committed to protecting our environment. Our practices respect all municipal, provincial/territorial and federal environment legislation, and the organization has never been convicted of an environmental offence. It is the company's mandate to make all reasonable efforts to reduce waste.

Etere since 2002 adopts a program to aid environment based on a system centre to control the power on and the power off computers inside it's headquarter. Thanks to this system Etere achieves a success saving every year 20% of electrical energy and 25% of gas for heating saving 22.5% of carbon dioxide emissions.

Besides Etere develops a software to control of the heating and of the lighting in order to manage all the resources at its best.

This progressive Etere structure is basically composed on detailed software able to centralizing PC lives.
