Etere, one of worldwide leaders in end-to-end broadcast solutions has announced the launch of its new website [www.etere.com](http://www.etere.com) which boasts mobile compatibility for connectivity on the move.

[www.etere.com](http://www.etere.com) has a clean, uncluttered design that enables quick and intuitive access to resources. It was designed to enable users to find what they want easily with the new categorization of Etere product line under 8 solutions: Ad Insertion, Airsales, Automation, BMS, Censorship, HSM Archive, MAM and Newsroom.

A user-friendly interface combined with simplified site navigation and dynamic search capabilities make it easy for the visitor to find the resources that they want. The website also boosts page speed by 20%, enabling improved user experience. The use of Https protocol also allows a more secure navigation from any device.

To give new visitors an opportunity to know Etere better, easy access to Etere's corporate information such as company profile, awards, team page and company history are available with quick links on the new homepage.
