VTVCab has been a customer of Etere since 2014 when it chose [Etere MERP](#) approach to manage its cable television channels. The largest pay TV operator of Vietnam renews its vote of confidence in Etere with the addition of Etere licenses for 4 new channels based on Etere Harmonic Channelport driver, including 2 channelports, main and backup with full redundancy for each channel. VTVCab's addition of new licenses also includes Etere Web Service Driver and the renewal of Etere software support license.

VTVCab enables integration of its Application Program Interface (API) with its customised schedule system using Etere Web Service Driver. The integration empowers the station to automatically publish contents to many channels from a single platform. In addition, it allows content to be seamlessly integrated for a smoother and more integrated user experience combined with a more efficient overall performance.

Renowned for its reliable and fully scalable systems, Etere's distributed architecture provides a fault-tolerant and fault-resilient performance throughout the entire eco-system.
