ETX

Etere announced that its 4K-enabled IT-based video management solution, **Etere ETX**, is compatible with Deltacast video cards including SDI cards and workflows over IP. Deltacast is a well-established global provider of cost-effective video cards for broadcast applications.

Deltacast Solutions: **Broadcast IP Workflows** and **SDI cards**

Addressing new standards in a timely manner is a key element of Deltacast's strategy and objective to provide customers with seamless transition from standard to standard. With its unified VideoMasterHD SDK, Deltacast solutions equip customers with a range of solutions that are ready to address new IP Workflows and to carry out broadcast contribution feeds over IP. The official partners of Deltacast include SMPTE 2022-6, AIMS, Sony IP Live Production System and TICO.

Powered by 4K
SDI cards include support for 4k formats such as 4K30 square division, 4K30 ST 425-3 (2SI), 4K60 8-bit Square Division, 4K60 10-bit Square Division, 4K60 ST 425 -5 (2SI), 4K60 RDD-35 TICO, 6G-SDI and 12G-SDI.

About **Etere ETX**
Etere ETX eliminates technical barriers with a wide selection product compatibility that provides a seamless user experience. It is a cost-effective solution and a complete **channel in a box** with full IP in and out capabilities, empowering you to drive the most popular HD/SD digital video/audio/graphics platforms without using middle-ware or proprietary hardware. **ETX** is also a fully digital ingest/playout engine that gives you professional video technology with the reliability and efficiency of Etere's distributed architecture and mastery of workflows.

About Etere

Founded in 1987, Etere is amongst the worldwide leaders in Media Asset Management and channel in a box software solutions for broadcasters and media companies. Etere's unique MERP software-only solution is used by many of the world's leading Media Enterprises to power their digital assets. Its modular solutions including Airsales, Ad Insertion, playout, HSM archive, TV automation and Censorship are built with an innovative architecture, offering the best flexibility and reliability in the market. Etere is headquartered in Singapore, with a dedicated 24/7 support centre in Italy.

About Deltacast

Started in 1986, Deltacast started with a background in general FPGA design and has a strong expertise in imaging applications. In 1989, the company started serving the broadcast industry with OEM custom designs. Well-established in the broadcast industry since 1998 with its range of broadcast applications, Deltacast soon provided dedicated software for the OEM solutions as well as design of OEM video interface cards. Deltacast provides a variety of cost-effective video cards that can be used in OEM products to create professional broadcast custom solutions and products. Today, Deltacast is located in Ans - Belgium and provides the widest range of cost-effective video cards for broadcast applications with a worldwide customer base.
