Media Asset Management

CensorMX

Etere returns for the 23rd edition of [CABSAT](#), the leading platform for the broadcast, production, content delivery, digital media and satellite industries across the Middle East, Africa and South Asia (MEASA). Etere will be exhibiting with **Broadcast Made in Italy**.

Etere and Broadcast Made in Italy at CABSAT 2017
21st March - 23rd March 2017 | Tue – Thu
Dubai, U.A.E, Dubai World Trade Centre,
Hall 1, Singapore Pavilion, Booth G1-31

Etere will also be exhibiting Etere MERP solutions at the stand of our Iraqi distributor, **Future Art Broadcast Trading LLC**, at stand **Hall 1 Stand: E1-20, 103**

Etere Enterprise-class solutions are designed for more cohesive workflows with increased system visibility. Transform your business from inside out and stay on top of the game with Etere MERP, a total software solution that is able to connect and manage the complete lifecycle of any Media/IT company.

Etere MERP software-only solutions are used by many of the world's leading broadcasters to power their digital assets. Its modular solutions including **Media Asset Management, Newsroom, Hierarchical Storage Management (HSM), Automation, Censorship, Airsales, Broadcast Management System (BMS) and Ad Insertion** are built with an innovative architecture, offering the best flexibility and reliability in the market.

Get an in-depth demonstration of Etere's trusted solutions at CABSAT 2017 including:

IP Technology

Leverage on the benefits of IP technology with Etere ETX which is a 100% digital ingest and playout engine that is able to perform full IP in and IP out capabilities. Reduce reliance on complex and expensive solutions with ETX - the cost effective and powerful channel-in-a-box system that is able to drive the most popular HD/SD digital video, audio, graphics platforms without middle-ware or proprietary hardware.

High-speed Internet Publishing

Etere ETX enables you to go the extra mile with high-speed streaming of audio, video and data directly to media servers such as Youtube, Wowza, Adobe Media Server and other publishing systems using the Real-Time Messaging Protocol (RTMP) and Real Time Streaming Protocol (RTSP). Streaming over media servers opens up a host of digital distribution opportunities including live feedback channels, optimized viewing on multiple devices and elimination of geographical barriers.

Etere CensorMX for Confidence and Compliance that You Can Trust

Etere CensorMX offers a robust and reliable editing suite in a 100% software solution. Its live censorship and time delay features combined with seamless integration allow broadcasters to perform comprehensive censorship options such as the replacement of footage quickly in time-critical environments. It is also a client server application that allows a single client to control multiple servers with zero delay technology for preview, making Etere CensorMX a powerful, versatile and cost-effective solution.

About Broadcast Made in Italy

Broadcast Made in Italy is made up of a group of four established, passionate and Made-in-Italy broadcast manufacturers and integrators who have come together for a common vision: To showcase our range of high quality, reliable, integrative and open solutions at exhibitions worldwide. We provide a full range of broadcast solutions including both software and hardware spanning all categories of TV and radio production for all your broadcasting needs.
