Etere Nunzio Platforms

From conceptualization to distribution, Etere Nunzio's enhanced newsroom enables fast modification and selection of content from social media accounts, searches and RSS feeds directly from the Nunzio interface. Users are equipped with a moderation workflow tool that allows them to drag and drop content from their social media sources into a playlist of curated content. Subsequently, the playlist can be inserted instantly into on-air graphics, content management systems and other external destinations.

Etere Nunzio is compatible with all popular social media platforms, empowering users with a fast and easy search from within the content of these platforms with the use of hashtags and keywords. Additionally, users can publish to multiple accounts on Twitter, Facebook, Telegram, Youtube and other social media platforms as well as to track feedback from all social media platforms directly from the Nunzio platform.

Newsrooms today run beyond the confinements of the office. Etere Nunzio integrates its file-based workflows with popular social media platforms, thus providing the flexibility that allows journalists and editors to edit, upload, share and review their stories and playlists on the move directly from a single interface. With its fully scalable workflows and future-ready technology, Etere Nunzio equips newsroom warriors with the most efficient tools to prepare them for the future of news content creation, because the future is now.
