OTT Services - Increase the value of your content at a lower operating cost by Fabio Gattari

Date/Time: 18 June, Tuesday, 5pm

Location: Suntec Centre TVExchange stage at 6N4-01, Suntec Singapore Convention & Exhibition Centre

Understanding the pros and cons of OTT and how to effectively manage it empowers decision makers. OTT can measure real-time viewership data, and ads can be curated, retrieved and delivered automatically based on user profiles, enabling targeted advertising with a higher rate of conversions. A highly efficient MAM system is required to manage the end-to-end lifecycle including sales, taking content providers to the next level at a lower operating cost.
