RadioHack 2016

We are excited to announce the launch of Etere 26.1 which comes bundled with the latest innovations that enables media organisations to fully maximise their media assets.

Etere 26.1 New Features

With Etere 26.1, MAM now comes bundled with our state-of-the-art Resource Management that is designed to maximize profitability and increase operational efficiency. Etere's Resource Management goes beyond the limitations of a traditional broadcast management system. It is designed as a powerful and unified solution that manages all broadcast related activities with significant cost savings in operational expenditure.

Flexibility on the web

With Etere 26.1, customers can now look forward to a new WEB based GUI for all modules that provides superior mobility with a highly integrative system. The Etere architecture is configured with flexibility in mind and the interfaces of all our modules are built on the latest IT technologies to provide the best user experience.

Advanced HTML 5 Player and Streaming Server Comes Bundled with Proxy and Transcoding

A new HTML5 player equipped with the capacity to play low and high resolutions with multiple audio tracks will be included with proxy and transcoding. The player comes complete with rich features and the latest technology in graphics, animations and text crawls to ensure the highest performance.

Etere will be glad to address any questions you may have so please drop us an email at: marketing@etere.com , we look forward to hearing from you.
