Discover Etere ETX and 4K Capabilities at InterBEE 2015

Posted by philsandberg On November 11, 2015 0 Comment

Since 1965, InterBEE has been a hub for information dissemination and exchange organised annually by the Japan Electronics and Information Technology Industries Association, for a wide range of stakeholders in the media and broadcast industries. Etere will be exhibiting at the Kondo Systems booth during InterBEE 2015, showcasing their latest 4K supported solution, Etere ETX.

Etere ETX is an exciting and new roll out with 4K capabilities. It is the most advanced, tightly integrated and cost-efficient video management system on the market, completely based on IT technology. It is a complete channel in a box with full IP (in and out) capabilities, enabling you to drive the most popular HD/SD digital video/audio/graphics platforms without using middle-ware or proprietary hardware. Etere ETX support any resolution with full up and down conversion.
