

Tapeless Reception

Receiving Files Easy and Secured as Tape

Workflow

- Librarian knows a new asset must arrive
- It creates the basic metadata
- Assign this asset to the sender (Agency, producer, production company)
- The sender login in Etere tapeless reception
- See the assets you are expecting
- Upload the files and complete metadata
- As soon the upload is complete a confirmation e-mail is sent to the sender (with optional attach a low-res copy of the file)
- The Librarian receive a confirmation e-mail
