## SIS

Etere is modular software to drive all the activities of a TV station from traffic to scheduling and billing. SIS partners include: Tektronix, Quantel, Elettronica Industriale, Seachange, Doremi Labs, For-A, and Antex. SIS is not only a software house but produces systems complete with hardware, software, installation and training, for the automation project. Products to be exhibited at IBC included: Etere Main; Etere TV Schedule; Etere Full Caching TV Automation; Etere Spot and Etere lite.
